

IS OUR BUILT ENVIRONMENT PREPARED FOR CLIMATE CHANGE?

multiclimact

Co-funded by
the European Union

This project has received funding from the European Union's HORIZON Innovation Actions programme under the grant agreement No. 101123538.

MULTICLIMACT YOUR SHIELD AGAINST CLIMATE HAZARDS

MULTICLIMACT is a groundbreaking initiative dedicated to safeguarding Europe's built environment against the increasing threats of natural and climatic hazards. By uniting 23 leading European organizations, MULTICLIMACT aims to enhance resilience, sustainability, and safety for communities across the continent.

Through innovative strategies, including a toolkit of 18 reliable methods and digital solutions, the project targets the urgent need for adaptive measures against floods, earthquakes, extreme weather conditions and heatwaves. Tested across four pilot sites with diverse climatic conditions, MULTICLIMACT embodies a shared vision for a safer, more resilient future, empowering communities to protect their surroundings actively.

MULTICLIMACT IN A NUTSHELL

- 42-months duration
- 23 partners, coordinated by RINA-Consulting SPA
- 4 demo sites in Italy, Spain, the Netherlands and Latvia
