

## Open Training Session #10

# Accelerating regional climate resilience: innovation, tools & pathways for action

As part of its capacity-building programme to strengthen European adaptation capacities, the REGILIENCE project invites regional and local stakeholders to its final **Open Training Session (OTS) focused on accelerating regional climate resilience: innovation, tools & pathways for action**. This closing session will explore diverse adaptation approaches—from strategic planning and innovative solutions to practical tools—that support climate resilience across regions. Participants will learn from real-world case studies and methodologies that enhance adaptation capacities, foster innovation uptake, and enable replication to address climate risks at local and regional levels.

## Agenda

**DATE:** 08.07.2025 11:00 – 13:00 CEST

**Title:** Accelerating regional climate resilience: innovation, tools & pathways for action

**Slogan:** Empower regions with adaptive pathways, breakthrough innovations, and practical tools. Accelerate climate resilience by scaling proven solutions and enabling transferable action across Europe's diverse territories.

**Moderators:** Jen Heemann (IEECP) & Guido Schmidt (Fresh Thoughts)

<i>Welcome</i> <b>Jen Heemann (IEECP)</b>
<b>Planning ahead: adaptation pathways for resilient futures</b> Chiara Castellani (Thetis S.p.A)
<b>Innovating for Impact: ARSINOE Innovation Bazaar and Open Tender Initiatives</b> Inna Petrenko (EU Project Director Affiliations: ENRICH GLOBAL, BRIGAD Connect/Icatalist)
<b>Adaptation in Practice: Climate-Proofing the Built Environment</b> Celina Solari (Rina Consulting)
<b>TransformAr's Replicability tool : a tool to assess the replicability of our demonstrator solutions for climate change adaptation</b> Jan Cools (University of Antwerp)
<b>Panel discussion</b> <b>Moderator: Guido Schmidt (Fresh Thoughts)</b>
<b>Wrap up and closing</b>
